

HB 439 should be dead upon arrival!!!!ORC 5122.01 set the requirements for involuntary committing tax payers for treatment with needing current not past law violation and a real enournmous current harmful threat to self or others not petty!!!! Most mental health staff at riverside, netcare, twin valley, and regency manor have misinterpreted that statue to fraudulently force patient treatment upon tax paying families for the financial gain of the organization and to give donations and support for democrats!!!!!!
HB 439 would only be used to go after conservative gun owners!!!!
