Chairman Stein,

I am writing to you today on behalf of the Ohio Masonry Association. OMA represents masonry contractors, suppliers, and producers across the state. We would like to formally express our support for House Bill 68. Closing the gap in Ohio law to provide for prompt payment on private projects is a critical issue right now to the masonry industry.

Cash flow for our members has never been more important. Any relief that you can provide to begin moving money through the system and down to our members at all tiers of the project is greatly appreciated.

As contractors wait sixty, ninety and even one hundred and fifty days to be paid by the owner for completed work, we are waiting as well. This small change will make a significant impact for all of us.

I urge you to quickly pass House Bill 68 to help not just the masonry industry in Ohio, but the entire construction economy as well.

Sincerely,

Greg Schuerman, OMA President
