

My name is Jacqueline Fournier. My background includes working as a docent at the Cincinnati Art Museum, an assistant to the director of a company in my native country of France, and as a yoga instructor. I am a Trager Approach student who has completed almost all of the requirements to become a Trager Practitioner.

If HB81 passes without an exception for Trager Practitioners then I will not be able to practice Trager in OH after I become certified as a Trager Practitioner. I have close family members, including my first grandchild, living near by. I do not want to relocate to another state in order to follow my calling to practice Trager. Please include an exemption in HB81 that will make it possible for me to practice Trager after I am certified without having to get licensed as a massage therapist.

Thank you for your attention.

Sincerely,
Jacqueline Fournier
