

To: Chairman LaRe . H.B. No. 22
Criminal Justice Committee @ Ohio
House. Gov (Amended Section 2921.32)

From: Naicema Williams Ward 2 Clevel. OH

My particular concern is about
the use of cell phones in videoing
and filming situations and
circumstances regarding police inter-
actions and situations.

I am in opposition to this
particular section of this bill.

If police officers would treat
everybody equally and with
respect, it would not be
necessary to worry or be concerned
if someone were filming them or not.
This is one of our basic rights
as tax paying citizens and
registered voters. Legislators
do not have authority to take
this away.
