To the House Criminal Justice Committee:

I oppose HB 22 because its clear intention is to stifle free speech. I oppose it because it is another one of those corporate-sponsored bills that somehow manages to get hearings when the real business of the people does not. I oppose it because it goes against every glorious principle of democracy. You must know this, so I expect that you will vote against HB 22, that is, if your purpose is to truly represent the people.

Thank you for this time,

Sincerely,

Sandy Bolzenius
