Susan Manchester, Chair
Ohio House Families, Aging and Human Services Committee
Ohio House of Representatives
77 South High Street
Columbus, Ohio 43215

Dear Chairwoman Manchester, Vice Chair Cutrona and Ranking Member Denson,

My name is Rev. Judith McBride and I am a chaplain and bereavement coordinator at Cincinnati Children's Hospital. I have over 20 years' experience in caring for patients and am currently a Board Certified Chaplain, and licensed as a Professional Counselor to practice in Ohio.

The Ohio General Assembly should leave the practice of medicine to licensed healthcare providers. I am gravely concerned that HB454 sets a dangerous precedent by interfering with medical decision making and parent/caregiver autonomy to discuss care options in consultation with their child's medical provider.

As chaplain and bereavement specialist, I perform a thorough evaluation on each patient and make treatment recommendations based on the best available evidence for that individual's situation. In my experience, parents/caregivers do the best they can, often in difficult circumstances, to make decisions they believe are in their child's best interest. An example of this is deciding for aggressive treatment or comfort care based on the child's diagnosis and prognosis. There is nothing more heartbreaking to witness than a parent who takes on the suffering of grief and bereavement themselves so that their child can have a peaceful, comfortable and supportive end of life.

HB454 would place medical professionals in an ethical dilemma: we would have to refrain from providing evidence-based care to patients struggling with a diagnosis of gender dysphoria or lose our medical license. **I cannot imagine another diagnosis where a state law would prohibit us from delivering evidence-based care.**

In a time when the demand for child and adolescent mental health care is at its highest, HB454 makes the demand even higher. I address patients' and their parents' mental health every day. I was trained to treat the whole child; ignoring a child's mental health or a diagnosis like gender dysphoria is simply not responsible care.

I implore you to vote no on HB454. This bill sets a dangerous precedent.

Sincerely,

Rev. Judith W. McBride, MDiv, BCC, LPC, CT
