Susan Manchester, Chair  
Ohio House Families, Aging and Human Services Committee  
Ohio House of Representatives  
77 South High Street  
Columbus, Ohio 43215

Dear Chairwoman Manchester, Vice Chair Cutrona and Ranking Member Denson,

My name is Dr. Mona Mansour and I am a practicing pediatrician at Cincinnati Children's. I have over 30 years' experience in caring for patients and am currently licensed to practice in Ohio.

The Ohio General Assembly should leave the practice of medicine to licensed healthcare providers. I am gravely concerned that HB454 sets a dangerous precedent by interfering with medical decision making and parent/caregiver autonomy to discuss care options in consultation with their child's medical provider.

As I practice medicine, I perform a thorough evaluation on each patient and make treatment recommendations based on the best available evidence for that individual's situation. In my experience, parents/caregivers do the best they can, often in difficult circumstances, to make decisions they believe are in their child's best interest.

HB454 would place medical professionals in an ethical dilemma: we would have to refrain from providing evidence-based care to patients struggling with a diagnosis of gender dysphoria or lose our medical license. **I cannot imagine another diagnosis where a state law would prohibit us from delivering evidence-based care.**

In a time when the demand for child and adolescent mental health care is at its highest, HB454 makes the demand even higher. I address patients' mental health every day- and we know especially after the events of the last 24 hours and the school shooting in Uvalde, Texas- that so many youth are struggling- really struggling. That mental health struggle is often much more complex for LGBTQ+ youth. We need to provide care in environments that are safe and welcoming to our patients. If we cannot build trusting relationships with our patients, they are at greater risk of poor outcomes including death. I was trained to treat the whole child; ignoring a child's mental health or a diagnosis like gender dysphoria is simply not responsible or ethical care.

I implore you to vote no on HB454. This bill sets a dangerous precedent.

Sincerely,

Mona Mansour, MD, MS
