Susan Manchester, Chair  
Ohio House Families, Aging and Human Services Committee  
Ohio House of Representatives  
77 South High Street  
Columbus, Ohio 43215

Dear Chairwoman Manchester, Vice Chair Cutrona and Ranking Member Denson,

My name is Kelsey Logan, and I am a practicing Pediatrician who specializes in Sports Medicine. I have over 18 years' experience in caring for patients and am currently licensed to practice in Ohio.

The Ohio General Assembly should leave the practice of medicine to licensed healthcare providers. I am gravely concerned that HB454 sets a dangerous precedent by interfering with medical decision making and parent/caregiver autonomy to discuss care options in consultation with their child's medical provider.

As I practice medicine, I perform a thorough evaluation on each patient and make treatment recommendations based on the best available evidence for that individual's situation. In my experience, parents/caregivers do the best they can, often in difficult circumstances, to make decisions they believe are in their child's best interest. An example of this is deciding whether to keep their child in a certain sport after a serious injury.

HB454 would place medical professionals in an ethical dilemma: we would have to refrain from providing evidence-based care to patients struggling with a diagnosis of gender dysphoria or lose our medical license. **I cannot imagine another diagnosis where a state law would prohibit us from delivering evidence-based care.**

In a time when the demand for child and adolescent mental health care is at its highest, HB454 makes the demand even higher. I address patients' mental health every day. For example, I yesterday counseled an athlete who had decided to retire from gymnastics due to her injuries; she was grieving the loss of something that was part of her identity and was struggling to cope with what her future would look like. I was trained to treat the whole child; ignoring a child's mental health or a diagnosis like gender dysphoria is simply not responsible care.

I implore you to vote no on HB454. This bill sets a dangerous precedent.

Sincerely,

Kelsey Logan, MD, MPH, FAAP, FACP, FAMSSM  
Division Director, Sports Medicine, Cincinnati Children's Hospital Medical Center  
Professor of Pediatrics, University of Cincinnati College of Medicine
