

Hello My Name is Adam Anderson, I am the father of an amazing Transgender Kid. I strongly oppose proposed House Bill 454. The information that this bill is based on is wildly misinformed.

There are nights I can't sleep thinking about how my family's life's will change if this bill is passed. Will I have to leave the state and to provide my child with the proper Gender Affirming Care?

Why are State Legislators getting involved with the decision making for my daughter and her well being?

I hear a lot, at different board meetings about Parental Rights, Parents demand the right to make decisions about their children.

I demand the same Rights. No one other than myself, my wife and qualified Doctors should be able to determine what Healthcare my child receives.

We are talking about Children and Family's that Love them. You won't only be losing Trans kids in the state of Ohio, these transgender kids have Brothers and Sisters too that will also be forced to leave.

Please Vote NO on HB 454
