

Sheila Barone

I'm a transgender woman and transitioning has saved my life. My first suicide attempt was when I was a freshman in high school. Back in those days we didn't have the internet. I also had no one to talk to about what I knew about myself. If I had I would have transitioned then before having to go through puberty in the wrong gender. I lead a local transgender support group and I have heard this over and over from adults(18 and over). Trans healthcare is vital to saving the lives of children in Ohio.

Please vote no to save lives.
