

PROPONENT TESTIMONY OF:

Laurel Kerr
10441 Barnview Ct Dayton, Ohio 45458

IN SUPPORT OF:

HB 55

Allow House committees/sessions be conducted virtually
House Government Oversight Committee

Dear Members of the Committee,

Please allow virtual testimony for legislative hearings.

Now that so much is being accomplished virtually, it seems ridiculous and self-serving to think that testimony on issues that matter most to Ohio citizens can only be accomplished in person. O

hio has so much to offer in innovation and technology, cutting-edge solutions, and inventions. It makes sense to reflect this in the way testimony from citizens is heard!

I hope you will help keep Ohio an up-to-date state by reflecting the innovative and scientific work of its citizens in the way government is administered.
