

House Government Oversight Committee

Opposition Testimony HB 227

Submitted by: Carolina Bouffioux

Chairman Wilkin, Vice Chair White, Ranking Member Sweeney and Committee Members, thank you for allowing me to testify on this important public safety matter.

I am a teacher and a resident of the city of Dayton. As such, I don't want permitless carry b/c I don't want people bringing firearms into schools or my community. I was living in Dayton when a crazy person shot and killed 9 people in the Oregon District, who were just out having a fun night out with friends & family. The governor stood there at the vigil that evening & told us that he would indeed Do Something to stop the rising tide of gun violence. He LIED. When common sense bills were brought, he sided w pro-gun entities & completely ignored our devastated pleas.

We do not need more guns and absolutely do not need people who are not trained or licensed to carry them going around. You must vote "No" on HB227.

Thank you,

Carolina Bouffioux
