Chief Counsel
GWEN CALLENDER

Chairman Wilkin, Vice-Chair White, Ranking Member Hicks - Hudson, and Members of the Committee,

My name is Michael Weinman, and I am a retired Columbus police officer who now serves as director of government affairs for the Ohio Fraternal Order of Police. Thank you for allowing me to give our opponent testimony on Sub. HB 227. Today, I am testifying on behalf of more than 24,000 active and retired members of the FOP from across Ohio.

The FOP strongly opposes Sub. HB 227, we feel the changes in the bill create a threat to officer safety. The bill eliminates the need for a concealed carry license, eliminates the notification by a licensee to an officer that they are armed, eliminates the duty for a licensee to keep their hands in plain sight, eliminates the requirement to carry documentation for both licensee and military personnel, and allows applicants to obtain a license from any sheriff in Ohio.

As I have said in the past, the license was negotiated over the course of multiple interested party meetings with a series of compromises that had unanimous agreement. Under Sub. HB 227, anyone twenty-one and older who doesn't have any prohibitions under state and federal law may carry a concealed handgun. They can do this without training or background checks and avoid any revocations or suspensions of a license from an issuing sheriff. They also get around the renewal background check.

One of the key negotiating points for the FOP was the interaction between the licensee and officers. A concealed carry license holder's duty to inform an officer and keep their hands in plain sight, who has stopped her, had been thoroughly negotiated and unanimously agreed to during those numerous interested party meetings leading to the CCH license. We see the notification and the requirement to keep hands in plain sight as a commonsense measure to keep the permit holder and officer safe.

You have heard arguments that law enforcement doesn't need the notification due to the information being in LEADS. This argument has also been mentioned in eliminating the need to have documentation on one's person. There are scores of situations when LE doesn't have the ability, or time, to run a license plate or check for a CHL through LEADS. There are incidents

when the permit holder is in a vehicle not registered to them and numerous times when drivers leap from the car when pulled over and head toward the officer still sitting in their patrol vehicle. Officers have numerous encounters where they approach a license holder outside of motor vehicles. Furthermore, we do not know of any way to check a military member's training status outside of the documentation they provide.

The bill replaces the notification with an ask from an officer. If this bill passes and judging by the testimony, the committee should know that officers will discover a firearm on a person and hear the "well you never asked me." There will be those who will not be afraid to lie or otherwise attempt to hide a firearm from the officer. The notification has been in place since the inception of the CHL, and the FOP would like to keep it in place. This video illustrates a failure to both notify and repeated denials when asked whether there is a firearm in the car during a traffic stop. It comes from the YouTube channel Columbus Police Body Cam that can be found at <https://youtu.be/M6Msf73mOXk>.

2,047 licenses were suspended or revoked in 2020 by sheriffs, and 1,777 licenses were denied. These numbers will drop precipitously if Sub. HB 227 should pass. Those who are twenty years of age or older will no longer have an incentive to get a CHL unless they intend to travel outside of Ohio and only if they need to meet a reciprocity requirement. No one can say how many of these people would have had their license suspended or revoked at some time.

In 2018, 222 officers were shot in the line of duty, and 48 made the ultimate sacrifice that year. In 2019, 293 officers were shot, while 50 lost their lives. 2020 had 45 officers killed by gunfire, with 283 total shootings. Unfortunately, law enforcement is not immune from attacks by CHL holders; Twinsburg Police Officer Josh Miktarian was shot four times by a CHL holder on July 13, 2008. The permit holder felt Officer Miktarian embarrassed him in front of his girlfriend by pulling him over for a traffic offense. By essentially eliminating the CHL, the number of individuals carrying concealed handguns will no doubt increase. And with that increase of individuals who have not had any training, have not been subject to a background check, and can avoid a suspension or revocation by a sheriff, will officers be faced with more gun violence?

On behalf of the Fraternal Order of Police of Ohio, I would like to thank you for the opportunity to provide opposition testimony to Sub HB 227. I will be happy to address any questions that you may have at this time.
