

My Written Testimony for HB248

My name is Justin Bilyj (sounds like Village but with a 'B' – think the Bilyj People) and I am a 3rd generation Ohio insurance broker, whose family has been helping Ohioans with their insurance since the 70's. I support HB248 because for the following 5 reasons:

1. In America, the land of the free – no one has a right to my healthcare decisions
2. Science is often politicized – leading to an abuse of the public for wrongful intentions
3. Businesses shouldn't have the right to think they know better than someone enough to make healthcare decisions for them
4. This bill codifies and states discrimination will not have a home here in Ohio
5. Vaccine passports are designed by the global elite to institute The Great Reset, by pairing it with electronic currency. This was foretold by the Book of Revelations, chapter 13, verses 16-18 – which is, *“He causes all, both small and great, rich and poor, free and slave, to receive a mark on their right hand or on their foreheads, ¹⁷ and that no one may buy or sell except one who has ¹⁶the mark or the name of the beast, or the number of his name.¹⁸ Here is wisdom. Let him who has understanding calculate the number of the beast, for it is the number of a man: His number is 666.”*

If this bill isn't enacted. I will take my family and business to Florida, where they respect Liberty and the right to make one's own medical decisions.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Warmest Regards,
Justin Bilyj
