

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Abby Wright, and I am a Human Resources professional with a young child and the reason I support House Bill 248 is because I strongly support medical freedom, true informed consent, and the right to choose what is and is not put into my body, as well as my child's. Being a HR practitioner, I strongly oppose any type of discrimination including vaccine status. All people have the right to true informed consent to assist them in making an educated decision that they feel is best for their families. Our state needs more unity not another avenue for division.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,
