My name is Tiffany Novak and I am a wife and mom of four. I support House Bill 248 because we are all individually created with different needs and should be able to freely make decisions on what does or does not go in our bodies. I don't treat any one of our family members the same regarding discipline, education or health. Each one of us is unique. Each one of us has different skills. Each one with their own personality. There is no "one shoe fits all" for any of us. I am sure the same is for your family. What is best for us is unlikely to match up perfectly for you. The freedom to decide is crucial to my health and well-being, as well as some of my children's.

Thank you for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,
