

Dear Health Committee-

My name is Heidi Anderson and I am writing in support of HB248. This bill is crucial to all Ohioans in order to protect medical freedom and healthcare privacy. We are already seeing employers and stores discriminate and mark those who are not vaccinated. We cannot allow this to happen in our free state. People do not vaccinate for many personal reasons. Our family has been affected by vaccine injury. We trusted our doctors when they recommended vaccines for our children. Our oldest four children received all of their vaccines and did fine. Our fifth child came along and had her first DTaP shot. She had peruse swelling at the injection site as well as neurological side effects. She has never been the same. That was our wake up call. We are very grateful to live in a state where all three exemptions are currently in place. With the new Covid19 vaccine, what we are seeing is extremely concerning to us. Nobody should ever be forced to take a vaccine that may hurt them. We cannot allow people to be segregated as clean (vaccinated) or unclean (not vaccinated) in society and especially in the work place. Without this bill we could be headed to a Nazi Germany society. Please pass HB248 in order to protect all Ohioans.

Sincerely,

Heidi Anderson
