Re: House Bill 248 Proponent Testimony

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Brittney Kash and I am a stay at home mom/teacher and my husband is a small business owner. The reason I support House Bill 248 is because I do not believe in discrimination. I have two medical conditions that prevent me from wearing a mask and I have been discriminated against and have left many places crying and upset. I do not want to see this happen with the vaccine. My children have the MTHFR gene mutation and should not receive vaccines. I want them to have equal opportunities and not be discriminated against. They deserve to go fun places like a kids play place and also deserve to go to school. My husband would like to be able to fill his small business with a choice and for his employees to keep their freedoms. In conclusion I believe that an individual should always have the choice what is injected into their Body, and this is especially true of a consumable product that carries zero liability for the manufacture. Please vote yes on House Bill 248.

Thank you once again for this opportunity to provide testimony for this bill.

Sincerely,

Brittney Kash
