

Hello,

Thank you for the opportunity to express my complete support of HB 248. I strongly believe that no one has the authority/right to force another person to be vaccinated against his or her will. Nor, should anyone (or anyone's minor children) face any restrictions or discrimination if he/she chooses to remain unvaccinated.

I contracted COVID Jan. 18, 2021. Later, because I have antibodies, I donated convalescent plasma. I became interested in my natural immunity and closely followed the work of Dr. Hooman Noorchashm. Please read this letter he sent to the FDA and Pfizer earlier this year.

<https://noorchashm.medium.com/a-letter-of-warning-to-fda-and-pfizer-on-the-immunological-danger-of-covid-19-vaccination-in-the-7d17d037982d>

Like many people, I am horrified at the power and influence Big Pharma wields over our government, the media and "medical science." I am also quite skeptical about the barrage of conflicting information I hear every day. It is difficult to trust our leaders more and more with each passing day, and the one-size-fits-all trajectory we've been on this year is increasingly terrifying.

I hope you can reasonably understand why I do not want to be vaccinated for COVID. I may change my mind later, but I do not think vaccination is a prudent option for me right now. And I am asking my Ohio leaders to honor and respect my choice.

Thank you,

Melinda A. Poist
