

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Jamie Schumacher and I am a mom. The reason I support House Bill 248 is because individuals need to have the ability to make their own medical decisions free of any coercion. Parents should have the right to choose or decline what is injected into their children's bodies without fear of them being kicked out of school. The government's intrusion into my life- needs to stop at my skin.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

*Sincerely,
Jamie Schumacher*
