

Chairman Lipps
Vice Chair Holmes
Ranking Member Russo
Members of the House Health Committee,

Thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Lindsay Stowers. I work for Athletes in Action in Xenia, Ohio. I am also a wife, mother of three, and a part-time administrative assistant. On behalf of my husband, Ross Stowers, and my family, I would like to tell you that the reason I support House Bill 248 is that I believe it is each person's God-given right to make choices regarding their own person, and for their minor children, that they believe are safest and healthiest. Every person has a different circumstance and situation. The government should not mandate a one-size fits all solution to a complicated problem, especially without sufficient time to really measure the side effects of this new vaccine on various populations and age groups. As Americans, we cherish our rights to live in freedom. Please enable Ohioans to maintain bodily autonomy.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,

Lindsay Stowers
Centerville, Ohio
