

To Chairman Lipps, Vice Chair Holmes,
Ranking Member Russo and Members of
the House Health Committee,

My name is Jonah Schulz and I am sharing this testimony to urge you to defend our most basic individual liberties by supporting HB248. Since last March, the people of our State have languished under unconstitutional lockdowns, mandates and decrees that have decimated our economy and destroyed millions of lives. While our lawmakers refused to act and free the people of Ohio from this tyranny, many of us have been on the frontlines fighting for the basic freedoms of attending church, operating our own businesses and breathing freely. Now we are fighting so that no government or corporation can forcefully inject us with an experimental vaccine. If we do not have the right to choose what is put into our own bodies, what exactly do we have the right to do?

I ask you today, to defend the very basic rights of bodily autonomy and take a stand with the people. This is your moment. This is why we elected Republicans like you. To fight for us.

As a young American, a lifelong Ohioan and as a candidate for U.S. Congress I will stand with you in this fight. This may be the most important piece of legislation ever put in front of you and you have the opportunity to be a shining example to the rest of our Great Nation. There is no place for vaccine passports in America. I pray that you will do what is right and VOTE YES on HB248.

God bless,

Jonah Schulz

Candidate for U.S. House of Rep. OH-16
