Vaccine Passports in OH

Proponent of Freedom

Written statement

1,304,683 American soldiers lost their lives so that we can be free.

That should settle it. This is not political. I believe it is not constitutional to require any type of vaccine passport in OH regardless of who operates any type of business.

People who want vaccine passports deny the science. Governor DeWine stated that the vaccines are one hundred percent effective. If this is true, then why would any person who is vaccinated fear any person who is not? Even if the vaccine efficacy is not one hundred percent, no one can live in a risk free world.

The science actually shows that vaccinated people can still get Covid 19. The media is trying to scare vaccinated people by telling them the lie that unvaccinated people can spread it or a variant. VACCINATED PEOPLE can do that as well.

The science shows that each person who has had Covid 19 has natural immunity. On March 9 of this year the US government gave emergency use authorization to test the T cell immunity of all of those people. With the original Sars Cov those people still have immunity 17 years later.

This is a dark chapter in our history as American citizens. WE have to give testimony to ask YOU to restore freedom that is already ours.
