

Chairman Lipps  
Vice Chair Holmes  
Ranking Member Russo  
Members of the Health House Committee

Thank you for the opportunity to provide proponent testimony on house bill 248. My name is Anna Clark and I'm a stay at home mom. The reason a support house bill 248 is because I've seen the negative effects that vaccines can have. I have a son who has vaccine induced Asthma. He was a completely healthy child and now deals with a life long illness that effects him daily.

Nothing is once size fits all. Mandating any kind of medical procedure is putting us and our children at risk and taking away our God give rights. As a nation built on freedom, we should not have to choose to use a vaccine that is still in its trail stages to combat a virus that in most cases has a recovery rate of 99.7%. People should ALWAYS have the right to bodily autonomy. That freedom should not come with restrictions such as losing your job or not being able to do things you need or love to do. Please stand up for freedom and support house bill 248.

Thank you once again for this opportunity to provide testimony on the need for and urgency of house bill 248.

Sincerely,  
Anna Clark
