

Dear Health Committee-

My name is Todd Anderson and I am writing in support of HB248. This bill is crucial to keep Ohioans safe from discrimination based on vaccine status. It also protects them from revealing private medical information. I am a piano tuner and have experienced first-hand people asking my vaccine status. This creates an uncomfortable situation and one that affects my ability to make a living. Nobody should have the right to inquire anything about private medical decisions. Please support HB248 in order to protect the medical freedoms of Ohioans.

Sincerely,

Todd Anderson
