Health Committee

Attention: Chairman Lipps

Subject: HB248 Testimony/Written Only

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, I appreciate the opportunity to provide proponent testimony concerning House Bill 248.

As a senior citizen and an active member of society, working forty plus hours a week, maintaining my home, etc., I do support House Bill 248. I have many reasons for supporting the Bill, and will provide you with two, first, I believe without HB248, forced vaccinations will be in violation of my State and Federal Constitutional Rights, secondly, I believe in Hurd Immunity, and that this is the best solution for handling the Covid virus.

Again, thank you for allowing my input.

Sincerely,

Diane Martin Maclam
