

WITNESS TESTIMONY: ANN MANZI

My name is Ann Manzi and I am writing as a proponent of HB 248 because I believe in the freedom of choice especially when it deals with the issue of medical treatment! No business or government entity should be allowed to force me or my family to take a vaccine or other medical treatment just to live life. Injecting my body, or the bodies of my children, with a vaccine or any other form of medicine is a decision that should be made once consulting a doctor. Everyone's health issues are different and must be addressed accordingly. It should not be a one-size fits all approach based on government mandates. I am genuinely concerned that without the passage of this bill my children will be forced to get the Covid vaccine to attend school on a daily basis when it is NOT necessary for them to receive one. I am also concerned that I may be forced to get the Covid vaccine just to go shopping and perform everyday activities. I am in good health with a strong immune system and, just like my children, do NOT need to take this vaccine. It is my God-given right to CHOOSE what is BEST for my health and the health of my children. NO ONE HAS THE RIGHT TO TAKE THAT AWAY FROM ME! The passage of this bill will ensure that my RIGHTS and the RIGHTS of my children are PROTECTED!
