

Chris Lewis, M.D.

**HB 248: To Prohibit Required Vaccination Status
Opponent Testimony: [NAME]
Ohio House Health Committee
June 15, 2021**

I appreciate the opportunity to provide opponent testimony on House Bill 248. I am dumbfounded by this legislation that seeks to destroy the power of one of the most important public health measures in human history—vaccination.

It's time we stop allowing politics to stand in the way of basic common sense and humanity towards one another.

It is not acceptable that people benefiting from vaccines against measles, mumps, rubella, tetanus, polio, COVID-19, and other deadly infectious diseases now seek to limit our ability, as a society, to protect ourselves.

Unbelievable, unacceptable, unconscionable, and un-American!
