

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Jenna and I am a stay at home mom and the reason I support House Bill 248 is because I am a born again Christian. Every human on this earth makes choices because God guides them and government should never be involved. I believe the government is pushing fear to convince the world that the vaccine is the only way, and it is not. I worked in therapeutics before I had my child and know that at 9 months pregnant it was still safe to make HCQ despite the media inducing fear upon it. Now I had been working compounding medication for 10 years, I've trained people on mask wearing when compounding medications in sterile, hazardous, and non haz/sterile compounding. Knowing what I know, the media's role in pushing fear and having a child wear a mask is just ridiculous and infuriating as a mother of a 4 and 1yo. I hope God guides you to make the right decisions on HB248.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,

Jenna Cantiberry
