June 3, 2021

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Maureen Spada Tan and I am a retired restaurant owner and the reason I support House Bill 248 is because I am concerned that our freedom of choice is under attack. I have worked hard for many years and now plan to travel this beautiful country. If vaccine passports become a reality, I may be inhibited with lack of freedom being discriminated against because of a personal healthcare decision. I support House Bill 248 to have vaccine choice, healthcare privacy, and to have discrimination protection.

Although this is a bill addressing vaccine choice, I feel compelled to share my deep concern about the serious risks with the COVID experimental injection. Almost 5000 deaths and over 228,000 adverse events reported by VAERS reporting system begs the question – Why is this injection still being offered? Please stop the COVID vaccine program!

Thank you again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,
Maureen Spada Tan
