

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Cara Delver and I am Registered Nurse, Mom, student, and the reason I support House Bill 248 is because I believe in choice. The choice to not be a scientific experiment on a new studied vaccine is an easy one. I support everyone's choice. I understand illnesses are real. I understand people want this to go away. But a vaccine is not the way. They also said masks were the way. Obviously, they were wrong there also.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,

Cara Delver
