

Chair Lipps, Vice Chair Holmes, Ranking Member Russo, and Honorable Members of the House Health Committee,

My name is Lori Siefker and I thank you for the opportunity to provide proponent testimony for HB248. HB248 is important to me because medical freedom is important to me. That's how I see HB248. It's a bill for informed consent. It's a bill for bodily autonomy. Where there is risk, there must be choice. It is important that everyone be able to make an informed decision about any and all personal medical decisions. It is important for everyone to be able to move freely in society without worry of discrimination because of a medical status. It is necessary that HB248 becomes passed in to law. Thank you again for the opportunity to share my proponent testimony.

Thank you,

Lori Siefker
