

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Kelly Oliver and I am a wife, mother to 3 daughters and a Radiologic Technologist. I have worked for my institution for 16 years as I joined them directly after graduation. I love my job and have dedicated my entire career to the institution that is now treating me as disposable. I support HB 248 because I believe in medical freedom. We provide medical freedom to our patients day in and day out. I am only asking that we as employees be given the same freedom. Anything other than that is true discrimination and opens up a road to forced medical procedures in the years to come. We need this Bill and we need it quickly. Our lives are literally on the line.

Thank you again for this opportunity to provide testimony on the need for and URGENCY of House Bill 248.

Sincerely,

Kelly Oliver
