

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Chad Greene and I am a commercial banking underwriter and the main reason I support House Bill 248 is because individuals have the right to decide what medications they want to take based on their beliefs and individual situation. They should absolutely not be forced to receive the covid 19 vaccine or any other medication to gain employment, retain employment, or be discriminated against by their employer. My employer has not mandated vaccines for employees and I do have the luxury to currently work from home but that will most likely change in the future.

Not only is this illegal but the hypocrisy of many covid regulations we have seen in the past 17 months can only be simply described as insanity!

If we are unable to stop this now, who knows what the employer mandates will be?

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,  
Chad Greene
