

HB 248

Proponent Testimony of The Vaccine Choice & Anti-Discrimination Act

My name is Timothy Kelly and I support H.B. 248 that is being proposed. Thank you for the opportunity Chairman Lipps, Vice Chair Holmes, Ranking Member Russo and the members of the House Health Committee for allowing me this time. As a father and previous healthcare professional, I have strong convictions with relation to mandatory vaccinations and healthcare privacy.

Conflicting literature has been evident regarding the Corona Virus vaccine. Ohio citizens should be able to thoroughly research studies. For example, a friend of ours stated that her father took the vaccine. After the 2nd vaccine was administered, he had complications and passed away. Our friend believes that the vaccine played a large role in his death. I have seen and heard studies that people are dying due to the side effects of the Covid vaccine. The right to consent to any procedure, vaccine or medication should be our God given right.

Thank you for your time and opportunity to share my testimony.

Timothy Kelly
