

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Jessica Guster and I am a Ohio business owner and the reason I support House Bill 248 is because forced medical procedures violate human rights. It is essential that every American has the right to choose what happens to their body and to their children's bodies. This matter is extremely important now but it is imperative to note that we are discussing this under a Emergency Use Authorization of an experimental drug. No long term studies are completed and they are pushing for more doses. We are also being told that boosters may be needed every 6-12 months. We have yet to know the future outcome of these current events so an opportunity to protect Ohioans rights should be of utmost importance.

Please support HB 248 to protect our freedom of choice!

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely, Jessica Guster
