

Chairman Lipps, Vice Chair Holmes, Ranking Member Russo, and Members of the House Health Committee, thank you for the opportunity to provide proponent testimony on House Bill 248.

My name is Wendy L Swoboda and I am retired from Nationwide Childrens Hospital. The reason I support House Bill 248 is because imposing mandates for masks, “vaccinations” and I call it such loosely since it is a whole new class of injection, is because I believe all American citizens have the right of choice when it comes to their health, their body and their children. I worry about the physical, social, educational and mental harm these mandates have on my grandchildren. Masks in school hinder learning and communication. Many learned citizens (including Fauci) have written opinions on the health risks of long term mask wearing (including bacterial disease). Please preserve our liberties. Please pass HB248.

Thank you once again for this opportunity to provide testimony on the need for and urgency of House Bill 248.

Sincerely,

Wendy L. Swoboda

Lifelong Ohio resident
