

I have been a teacher, coach, and business owner for many years. I received a great education from Lakewood HS. It is crime what is happening to our schools and the education of our children. They need to be taught American History and our US Government like I was taught back in the 1950's and 1960s. Without informed legal citizens, our democratic republic will cease to exist. We need Faith, Family, and Founding Fathers education. You are mos welcome to call me for my views.
