In support of HB-118  
Ohio House Public Utilities Committee  
March 9, 2021**

Chairman Hoops, Vice Chair Ray, ranking member Smith, members of the committee, I write as a proponent of HB-118.

I urge the legislators to vote for referendums in HB118. I live in Flat Rock Ohio, and I am not content to be surrounded by these behemoths.

I have great concern for the water table, with such enormous machines, disturbing the karst. This is sinkhole country. Don't contaminate the water.

I know our eagles are at risk. There is noise that needs to be considered. Please put this referendum through and give us a voice.

Thank you for addressing this crucial issue.
