

Written opponent testimony for the hearings of March 23, 2021.

March 21, 2012

We are writing to state our opposition the SB 52 and HB 118. These bills would stop the development of new wind and solar farms. They would hinder these clean energy options with additional procedures not required for other types of energy development and are thus unfair. Local residents have multiple avenues of participation in the citing process as it exists today. To be clear: it doesn't need to be further complicated.

Sincerely,
Tom and Laura Bindernagel
