

Testimony of Heather Chappell
Support SB 90
Government Oversight and Reform
February 16, 2021

Chairman Wiggam, Vice Chair John, Ranking Member Kelly and honorable members of the State and Local Government Committee:

I would like to take this time to ask you to vote yes on HB90 and please add an emergency clause. I could bore you with more stories and statistics about how this has affected my life and that of my children, people in nursing homes, children with bad home lives, recovered addicts, those with depression problems, even our pets, our military, first responders, our schools and so many more. At this point as many others will tell you, we are tired. The tyranny has to stop and there is no reason that the voice of the people is not being heard in America. I absolutely do not think that this bill is perfect, as some of it scares me to death. Later down the road, with voting fraud, the closed minds and constant censoring accepted by some current legislators, I am not sure how it will end, but that is another fight for later. NOW, Ohio needs something. NOW. And if it has to be this imperfect bill then so be it. A single man should NEVER decide the fate of all of the people in his state, we are not in a dictatorship, or are we? Let me share the definition with you and you can decide for yourselves...

Dictatorship, form of government in which one person or a small group possesses absolute power without effective constitutional limitations.

Thank you for allowing me to write testimony on HB90 and again, I ask for the voice of the people, you vote yes on HB90 and add an emergency clause so that it is effective immediately.
