

Dear Committee Members,

Federal and State Governments have been deteriorating ALL of our rights at rapid speed since March of 2020. Governor Dewine canceled an important election. Overnight at the last minute, after a Judge advised him not to. He has since been out of control. You know the rest. He isn't planning of doing the right thing and inholding the Constitution. The cooperations are infringing on our rights by forcing us to give up our rights to postpone vaccinations or we will become unemployed and obtain no service at businesses. Our Governor has allowed this. We must stop the Federal Government from taking our last line of defense away! We must STRENGTHEN not Weaken our RIGHTS, especially our 2nd Amendment.

VIOLENCE IN OUR HOMETOWNS...

It's coming here. It's coming everywhere unless we stop it by fighting back and protecting our towns and homes. We need all out freedom and firearms to do this. We stop them with firearms if necessary. Ohioans have invested much money in the purchase of and training to safely use firearms to protect our homes against such violence. Do not allow federal government to hinder our protection, especially as times are so unstable. No one should have to wait on police to stop a life threatening event. Please strongly support

The OGO Second Amendment Preservation Act, HB62 sponsored by Representative Mike Loychik Today.

*Sincerely,
Betsy Nethers*
