

Stop this nonsense. None of us teach CRT to any students in grades K - 12. Currently, I teach social studies in the fifth grade, and I do not teach CRT. I teach about: map skills, regions in the USA, culture, the land bridge, Native Americans in North America and South America, explorers and the Columbian Exchange, basic types of government, basic economics, 9-11 Anniversary, Pearl Harbor Anniversary, Dr. King Day, Veterans' Day, Memorial Day, famous people of Ohio, and more. Come and hear what I teach daily. I teach the standards. If this passes, you will be taking away my ability to teach. I will have to stop and think if it is safe to teach or say anything in the classroom. I have been teaching in grades 1-8 for thirty years. I know how to do my job. Again, come and see what we teach. HB 322 and HB 327 are only promoting panic among our community.
