Subject: House Bill 327

To whom it concerns: Chairman Wiggam, Vice-Chair John, Ranking Member Kelly and members of the Ohio House State and Local Government Committee.

I'm a citizen of the Great State of Ohio. I speak on behalf of myself, we the people and as a Man of God!

I'm requesting that HB 327 be passed as an emergency bill to promote non discrimination and prevent the promotion of divisive concepts in schools K-12, higher education, local and government employment.

Our country is facing tyranny and the collapse of our constitutional rights! The declaration of Independence founded in 1776 is the foundation of our existence and the outline of our law! If we don't maintain a governance of these rights we will fall as a State and Nation to the tyranny of ideology, socialism and communism!

Our God given rights and freedoms of this constitution are being stripped from humanity at fast speed! When our rights are compromised and stripped, we are faced with the removal of our own spirit and understanding of one's self! We then are no longer free as God intended! We are forced into an ideology world of conforming to certain unconscionable ways!

This bill holds accountability and upholds the constitutional law! This bill will serve as a reminder and correction of this fast pace of unGodly ways of mind control and racism!

Respectfully,
Belinda Hoffman
