

I have been hosting for about 4 months now. Airbnb has made it possible for me to try to build a college fund for my 2 daughters who are (4 and 6 ) at the moment and potentially contribute to the retirement fund for my wife and I. I humbly ask that you support HB563 as it allows normal everyday working people the chance to build more for their families with Airbnb. Due to my Airbnb property, I have directly or indirectly employed at one point or another over 20 individuals in the past 4 months. Between cleaning, landscaping, construction, etc. I hope you would weigh on all of this info.

Sincerely,

Hernan Giraldo
