

Air BnB hosing has provided a steady income, allowed me to invest significantly into my properties and actually have created a higher standard for housing in the two neighborhoods I operate Air BnBs in.

My upgrades and renovations have caused my neighbors to improve their properties.

I love owning beautiful properties and Air BnB has allowed me to do just that.

My Air BnB guests come from

All over the world and love my properties, love my neighborhoods and love my Ohio cities Cincinnati and Columbus.

My guests are thoughtful, respectful, and excited to have an opportunity to get to know Cincinnati and Columbus Ohio better.

Air BnB allows guests to experience the best of Ohio, our neighborhoods.

Air BnB allows me to establish a new business that will carry me through retirement. It also allows my adult children to earn income through helping me with repairs, improvement, cleaning, guest relations and more.

Thank you for allowing property owners to responsibly use our real estate in the most profitable and responsible way possible.

Sincerely,

Leah Winkler
