

I have been hosting since March of 2011...with zero problems since we screen all visitors and ask why they are visiting our area. Most are coming to visit relatives and do not want to stay with them. I am renting my own home and not an extra rental. This rental allows me to pay my mortgage and maintain the property. We also suggest nearby businesses and restaurants which help the community We do not rent to idiots who will not take care of the property since we are aware of when there have been other problems. We have never had any problems because of this.

Sincerely,

Mark Slavick
