

I have been hosting along side my boyfriend who owns the home for 4 months. We started this so that we could create a beautiful space for travelers who come into town with their families and pets. We love hosting and the people we meet. We have had 5 star reviews since we began because people love the coziness of the house and that we are pet friendly. We have a large fenced in backyard and all the amenities of a house with a fully stocked kitchen.

We recently signed up 2 traveling nurses who are doing rounds at Akron childrens hospital and they wanted to bring their puppy with them for their 3 month contract.

The money we earn from the Short term rental is allowing us to improve the property and add another full bathroom and recreation room.

We have had such a positive experience that we are now in the process of signing contracts with 2 more homes to help them start up their own Airbnb business. 1 of the homeowners wants to create a community garden in the empty lot next to his home and we are going to help his dream become a reality.

We would love to work with lawmakers and help share our story to bring more travelers to Akron.

Sincerely,

Marlynn Majer
