

My husband and I have been hosting for almost two years now. I also take care of my sister who had a stroke and requires a lot of assistance to remain in her home. Hosting gives me the ability to take care of her on a daily basis and take care of our short term stay Airbnb. This arrangement allows me to do both and I still have an income. We are currently renovating our primary residence after a severe mold issue and my income is important and so is my sisters care. I am willing to meet virtually to share my story.

All our guests come to our area to enjoy the lake, the local wineries, and our covered bridges which benefits our local economy.

Thank you for your time!

Sincerely,
Elaine Marcy
