

Having the opportunity to be a part of the Air B&B community has been a great experience and value add not only to me and my family but also the local community.

We purchased an older home and invested in the rehab of that home. In total there were almost 20 different local contractors involved with the project. Now that it's complete the property has hosted individuals who were traveling to our great city for the Ark Experience, Perfect North, concerts and sporting events. The idea that these people could have chosen to stay in No. Kentucky or SE Indiana but chose to stay in Cincinnati says a lot about what we have to offer.

I would love to meet with someone to discuss this further and show you the benefits and possibilities to continue moving our region forward.

Sincerely,
Marcus Bethay
